

# Trilogy Bundles **WORK**

Trilogy Bundles provides significant cost savings by negotiating contracts with volume. Using proprietary contracting technology, we only target high-performing, quality providers resulting in savings 20-50% below traditional bill review and PPO models.

## **PREDICTABLE COSTS**

Bundled payments simplify surgery costs by combining pre-op, procedure, and post-op care into a single, comprehensive fee – helping employers and insurers predict and manage costs more effectively.

## **HIGH QUALITY OUTCOMES**

Providers are incentivized to deliver high-quality care to achieve better outcomes, as they are held accountable for the entire episode of care – emphasizing quality over quantity.

## **ADMINISTRATIVE SIMPLICITY**

Bundling reduces the administrative burden by consolidating multiple bills into a single payment and eliminating the need for costly, time-consuming bill review – one bill, one payment, less paperwork.

## **Real RESULTS**

A Midwest-based client analyzed **78 surgical procedures** using Trilogy's bundled rates and saw:

**\$22,800**  
Avg. Savings/Procedure

**\$1,780,000**  
Total Projected Savings

## **Let's talk SAVINGS**

Trilogy Bundles are tailored to your workforce and your financial goals. Contact us to learn how we can help you reduce costs and improve care.
